

# Meet your newest neighbors. Diamond Castle Holdings. Who is Diamond Castle Holdings?

CVPS is selling a controlling interest in Catamount's wind business to Diamond Castle Holdings, who also will have the option to buy the whole wind business. Who is Diamond Castle? An aggressive, New York private equity firm out to make money. These new owners will not be your typical neighbors, friends, or even Vermonters. They buy companies, cut costs, improve cash flow, and then sell to the highest industry bidder.

The environment, wildlife, renewable energy and our community are not their concerns. They care about the money. And the money won't be staying in Vermont.

Contact Governor Douglas, your state and local officials. Tell them you don't want for-profit developers destroying our ridgelines for money.
